

Vehicles powered by CNG (compressed natural gas)

The versatility of natural gas

There are many new natural gas technologies in the marketplace to help businesses increase their sustainability and strategically grow their bottom line. Ask us about:

- Natural gas vehicle fuel.
- Traditional gas generators.
- Microturbines or CHP systems generate electricity and waste heat is used to run chillers or heat water.
- Gas heat pumps – the latest in air conditioning and heating.
- Commercial grade restaurant equipment – efficient and durable.
- Natural gas water heating – the latest in tankless technology and boilers.
- Outdoor options – radiant heat for floors or overhead, gas lighting, gas fire pits and tables.
- Overhead radiant heat for garages and large industrial spaces.

Who we are

The City of Tallahassee Natural Gas Utility operates a gas distribution system that serves over 31,000 customers in the Leon, Gadsden and Wakulla areas. We provide reliable service in the face of the most inclement weather. Our network is constantly monitored and inspected by our trained technicians for potential leaks or damage and most importantly, to ensure your safety. In the event of an emergency, we're ready – 24 hours a day – every day of the year for your protection and peace of mind.

Call us today for your commercial, residential and industrial needs.

*Your Business Energy Partner
in Midway, Florida*

You deliver for your customers. We deliver for you.

Every day you work to take care of your customers. We do, too. The City of Tallahassee Gas Utility wants to provide you with a secure and dependable source of natural gas, because energizing your business is what we do.

Businesses large and small deserve a partner that understands what you need to grow your company. Whether you own a family restaurant, operate a large factory or anything in between, natural gas is the affordable, reliable energy source that can serve you best.

A smart choice for every business.

Whether you're a startup or an established company, you still want the smartest energy source for your business. We know that source is natural gas. It's efficient, affordable, and incredibly abundant. Because our distribution system lines are underground, natural gas is virtually unaffected by storms or hurricanes and does not rely on electricity for operation.

-
- *Low energy rates*
 - *Smaller carbon footprint*
 - *Reliable energy in storms*
 - *Monthly billing based on consumption*
 - *Reduced energy use*
 - *Rebates for commercial water heaters*
 - *Special contract pricing for high volume customers*
-

More savings. More growth.

From mom-and-pops to manufacturing sites, our goal is to help businesses grow by helping them spend less on energy. Natural gas is better for businesses, better for our communities, and better for our environment.

Commercial/Industrial services

The money you save on energy is money that can be reinvested in your employees, your customers and your community. No matter the business, the City of Tallahassee's Natural Gas Utility team can work with you to create energy solutions that work. Our commercial rates are the lowest in this area and can help you run your company as efficiently as possible.

Gas lights provide atmosphere for outside dining.

Multi-family and residential developments

Consumers prefer natural gas living and homes are easier to sell or lease when they come with amenities consumers demand. Including natural gas will help you sell more homes and lease more apartments based on renter preference alone. For building owners and tenants alike, financial advantages include lower energy bills, reduced operating costs and longer last systems that require less maintenance.

- Consumers love natural gas appliances and are willing to pay extra for natural gas luxury.
- Natural gas makes homes more comfortable and saves money for owners.
- Happy customers equal less costly turnover for multi-family developments.

The City of Tallahassee Gas Utility can help you with your multi-family and residential developments with customized gas appliance rebate packages, energy efficiency information, cost savings, and energy comparison calculations.
